

I STRONGLY oppose the weakening of the Indiana Telephone Privacy State law! I finally get to enjoy my evenings, without several calls from telemarketers! I do not want these calls, as I indicated by signing up for the Indiana 'No Call List'. I don't want my time wasted with these calls for items I don't want and don't need...not to mention the interruptions the phone calls create. I prefer to get calls only from my family and friends, and people I give my number to.

Sincerely,
Kristi Timmons
